

SP10, RP10, RP11, RP12, RP13 SAFETY DATA SHEET

1. Identification

GHS product identifier	HTP Boron Nitride Nanotube (BNNT) Puffball
SDS number	BNNT - 004
Version No.	01
Issue date	29-April-2013
Revision date	02-October-2020
Supersedes date	18-September-2020
CAS No.	Mixture
Recommended use	Property Studies; Compositing; Biomedical; Functionalization; Filters; Thermal conductor
Recommended Restrictions	Not available.
Manufacturer	BNNT, LLC 300 Ed Wright Lane Suite A Newport News VA 23606 US info@bnnt.com http://www.bnnt.com Contact Person: R. Roy Whitney +1 757.369.1939
Emergency	

2. Hazards identification

GHS classification	
Physical hazards	Not classified.
Health hazards	Acute Specific target organ toxicity, single exposure
	Category 3 respiratory tract irritation
Environmental hazards	

GHS label elements

Signal word Warning

Hazard statements Causes serious eye irritation. May cause respiratory irritation. May be harmful if swallowed.

Precautionary statements

Prevention Wear protective gloves/protective clothing/eye protection/face protection. Avoid breathing dust/fume/gas/mist/vapors/spray.

Response IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Call a POISON CENTER or doctor/physician if you feel unwell.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Specific hazards Dust may irritate the eyes and the respiratory system. Dust may irritate skin. Research on the dermal exposure of nanomaterials is ongoing.

3. Composition/information on ingredients

Components	CAS No.	Percent
Boron Nitride; BNNT, LLC (50% BNNT, 50% hexagonal Boron Nitride)	10043-11-5	50-95
Boron	7440-42-8	5-50

Composition comments * Typical value
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First aid measures

First aid procedures

Inhalation	Dust irritates the respiratory system and may cause coughing and difficulties in breathing. If symptomatic, move to fresh air. Get medical attention if discomfort develops or persists.
Skin	Contact with dust: Wash area with soap and water. Get medical attention if irritation develops or persists.
Eye	Dust in the eyes: Do not rub eyes. Immediately flush eye(s) with plenty of water. Remove contact lenses, if present and easy to do. If irritation occurs, get medical assistance.
Ingestion	Rinse mouth thoroughly if dust is ingested. Get medical attention if symptoms occur.

Most important symptoms and effects, both acute and delayed Irritation of nose and throat. Irritation of eyes and mucous membranes. Coughing.

Notes to physician Provide general supportive measures and treat symptomatically.

General advice Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media	Use fire-extinguishing media appropriate for surrounding materials.
Unsuitable extinguishing media	None known.
Specific hazards arising from the chemical	None known.
Protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace.
Protection of fire-fighters	Use standard firefighting procedures and consider the hazards of other involved materials.

6. Accidental release measures

Personal precautions	Ensure adequate ventilation. Avoid inhalation of dust and contact with skin and eyes. Wear suitable protective clothing. See Section 8 for personal protective equipment.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
Methods for containment	Not available.
Methods for cleaning up	Avoid dust formation. Collect dust using a vacuum cleaner equipped with HEPA filter.

7. Handling and storage

Handling	Avoid formation of dust and aerosols.
Storage	Store in tightly closed original container in a well-ventilated place. Read and follow manufacturer's recommendations.

8. Exposure controls / personal protection

Occupational exposure limits	No exposure limits noted for ingredient(s).
Recommended monitoring procedures	Follow standard monitoring procedures.
Engineering controls	Handle inside a chemical hood when possible.
Personal protective equipment	
Eye/face protection	Wear dust-resistant safety goggles where there is danger of eye contact.
Skin protection	Wear suitable protective clothing such as a lab coat.
Respiratory protection	When handling outside of a chemical hood use a non-powered respirator with suitable particle filters.
Hand protection	Wear protective gloves when handling. Use proper glove removal technique to avoid contact.

9. Physical and chemical properties

Appearance

Physical state	Solid.
Color	White to grey.

Form	Puffball, with typical dimensions of 2 X 20 cm, consisting of an interconnected network of boron nitride nanotubes (dimensions of 2 to 8 nm in diameter and lengths from 1 micron to 1 millimeter) and hexagonal-BN nanoparticles (dimensions of 5 to 100 nm), which are bonded together by covalent and noncovalent intermolecular forces into a cotton-like network.
Odor	Not applicable.
pH	Not applicable.
Melting point/freezing point	2973 °C (5383.4 °F)
Boiling point	Not applicable.
Flash point	Not applicable.
Evaporation rate	Not applicable.
Flammability (solid, gas)	Not available.
Flammability limit - lower (% temperature)	Not applicable.
Flammability limit - upper (% temperature)	Not applicable
Vapor pressure	Not applicable.
Vapor density	Not applicable.
Relative density	Specific gravity = 0.0001-0.001
Solubility (H2O)	Insoluble in water.
Partition coefficient (n-octanol/water)	Not applicable.
Auto-ignition temperature	Not applicable.
Decomposition temperature	> 4000 °C (> 7232 °F)
Viscosity	Not applicable.
VOC (Weight %)	Not applicable.
Bulk density	Variable depending on if compacted (UNIT)
10. Stability and reactivity	
Chemical stability	Stable at normal conditions.
Possibility of hazardous reactions	Will not occur.
Conditions to avoid	Avoid inhalation of dust produced by operations that might disrupt the puffball, such as grinding, teasing, or tearing.
Incompatible materials	None known.
Hazardous decomposition products	Boron oxides. Nitrogen compounds.

11. Toxicological information

Toxicological information	Occupational exposure to the substance or mixture may cause adverse effects.
Acute toxicity	May cause respiratory tract irritation.
Skin corrosion/irritation	No data available
Serious eye damage/irritation	No data available.
Respiratory sensitizer	No data available.
Skin sensitization	No data available.

Mutagenicity	No data available.
Carcinogenicity	No data available.
Reproductive toxicity	No data available.
Specific target organ toxicity - single exposure	May cause respiratory irritation.
Specific target organ toxicity - repeated exposure	No data available.
Aspiration hazard	No data available.
Other information	Large doses of processed HTP BNNT puffball administered to mice via aspiration have been shown to produce acute irritation in the lung tissue. Irritation peaked at 7 days and resolved over time without the development of disease, such as fibrosis.

12. Ecological information

Ecotoxicity	The product is not classified as environmentally hazardous. However, as the HTP BNNT component is a nanomaterial, use of Hazardous Materials Remediation companies are recommended for waste management, and this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	No data available.
Bioaccumulation	No data available.
Mobility	The product is insoluble in water and will sediment in water systems.
Other adverse effects	No data available.

13. Disposal considerations

Disposal methods	Avoid discharge into water courses or onto the ground. Dispose in accordance with all applicable regulations.
Waste from residues / unused products	Dispose of waste and residues in accordance with local authority requirements.
Contaminated packaging	Dispose of in accordance with local regulations. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

ADR

The product is not covered by international regulation on the transport of dangerous goods.

IATA

The product is not covered by international regulation on the transport of dangerous goods.

IMDG

The product is not covered by international regulation on the transport of dangerous goods.

RID

The product is not covered by international regulation on the transport of dangerous goods.

Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code No information available.

15. Regulatory information

Regulatory information The product has been classified according to the legislation in force.

Inventory status

Country(s) or region	Inventory name	On inventory (yes/no)*
Australia	Australian Inventory of Chemical Substances (AICS)	Yes
Canada	Domestic Substances List (DSL)	Yes
Canada	Non-Domestic Substances List (NDSL)	No
China	Inventory of Existing Chemical Substances in China (IECSC)	Yes
Europe	European Inventory of Existing Commercial Chemical Substances (EINECS)	Yes
Europe	European List of Notified Chemical Substances (ELINCS)	No
Japan	Inventory of Existing and New Chemical Substances (ENCS)	Yes

Country(s) or region	Inventory name	On inventory (yes/no)*
Korea	Existing Chemicals List (ECL)	Yes
New Zealand	New Zealand Inventory	Yes
Philippines	Philippine Inventory of Chemicals and Chemical Substances (PICCS)	Yes
United States & Puerto Rico	Toxic Substances Control Act (TSCA) Inventory	Yes

*A "Yes" indicates this product complies with the inventory requirements administered by the governing country(s)

16. Other information

Disclaimer

The information in this SDS was obtained from sources which we believe are reliable, but no warranty or representation as to its accuracy or completeness is hereby given. Users should consider the information herein only as a supplement to other information gathered by them and must make independent determinations of suitability and completeness of information from all sources to assure proper use and disposal, the safety and health of employees and customers and the protection of the environment.
